

2020 Indiana Society of American Foresters Forest Pesticide Training Program

Wednesday, December 2, 2020, for Live Virtual Presentations

Additional pre-recorded content will be available as well

Where

Registered attendees will be provided links to the pre-recorded and live presentation content

Education Credits

This program will apply for CFE credits in category 1 by the Society of American Foresters, and CCH credits in category 2, 3A, 6 and RT from the Office of the Indiana State Chemist. Once credits are assigned, they will be posted. A minimum 4 to 5 available credits are anticipated.

Cost

The registration fee is **\$50.00 for SAF members or \$65 for non-members**

Registration

Please register by November 27. No late registrations will be accepted. Only those registered for the program will be eligible for continuing education credits. You can register online with your credit/debit card by going to www.indianasaf.net. Registering online is fast and easy and you will receive a receipt via email in less than five minutes. To receive credit for your attendance at the live program and the recorded presentations, you will complete a survey with one or more content questions confirming your presence for the presentations.

If you encounter difficulty registering, please contact

Program questions can be directed to Lenny Farlee lfarlee@purdue.edu

2020 Indiana Society of American Foresters Forest Pesticide Training Program

11:45- 12:15 pm, Dawn Slack, TNC. CISMA update and Terrestrial Plant Rule species guide

Additional hours of recorded content will be available online. Links will be provided to you once the content is posted. You can view this content for credits up to 10 days after the December 2 program date. The hours of credit you earn will depend on what programs you select to view or attend.

Joe Becovitz, Office of the Indiana State Chemist. Liars & Testers and Covid Oh My! 30 minutes

Liz Jackson, Purdue University. Emerging Invasive Plant Species. 30 minutes

Ron Rathfon, Purdue University. Winter creeper management and some newer herbicides for invasive control and forestry. 45 minutes

Lenny Farlee, Purdue University. Identification of invasive plants and some native look-alikes. 45 minutes

Please remember to have your pesticide applicator license number and your SAF or CF number to apply for credits. I recommend checking the OISC applicator site to confirm your CCH numbers and status: <https://www.inplants.oisc.purdue.edu>

This program is provided by the Indiana Society of American Foresters with the cooperation of Purdue University Forestry and Natural Resources Extension and the Hardwood Tree Improvement and Regeneration Center.
